

Dear Partners,

The Coronavirus / COVID-19 has an impact on the movement of people and products all over the world. Our company paid high attention, even before the appearance of the epidemic, to the hygienic rules in its operation, both in the fields of production and distribution of goods.

Throughout the spreading of the Coronavirus, we are seeing new information day-by-day, to which circumstances we are communicating the following notification about the operation of our company:

Jármű Zrt. is strictly following all the advices of the Hungarian Government created according to the health protective protocol of the WHO (World Health Organisation) in its production plants of Budapest and Tiszavasvári.

Our company takes preventive and monitoring measures in order to protect the health of our partners and colleagues, and at the same time, it ensures the high quality production according to the international standards that our customers are accustomed to and expect from Jármű Zrt.

Above all, we have created a continuance plan to ensure the production, which includes health protective control for the service of our customers and the protection of our colleagues.

Currently, our company keeps its production and delivery capacity, and we are trying to adapt to the rapidly changing situation. In the future, we will inform our partners immediately about any change affecting the production.

March 18th, 2020, Budapest

A handwritten signature in blue ink, appearing to be 'J. Forgács', is written over the printed name.

dr. József Forgács
General director / CEO
Jármű Zrt.
